
Usg Seismic Design

generic seismic design - potters - for perimeter fixed ceilings, a continuous nogging must be provided at the same level as the perimeter angle trim along all fixed edges of the ceiling (a continuous concrete or block masonry wall/beam is also **technical document seismic technical guide - usg** - 4 sloped ceilings seismic design category c seismic design category d, e, f main-tee classifications intermediate duty heavy duty perimeter vertical hanger wires not more than 8 in. from wall not required 2 required **technical document seismic technical guide - usg** - and the application of hanger wires in a seismic design category can meet code requirements in different ways. usg ® recommends that the design team, consulting engineers and code officials work together to analyze these **usg seismic design guide - paulreedconstruction** - usg seismic design guide usg seismic design guide by nyrb classics usg seismic design guide seismic solutions. seismic compliance refers to the use of approved systems and designs that meet the seismic design requirements of a **suspended ceiling seismic assemblies - usg** - the design team performs the analysis required to assign the seismic design category for a construction project and must include that information in the construction documents. this tells the construction team the required level of performance for the building. **september 2015 generic seismic design - usg boral** - for perimeter fixed ceilings, a continuous nogging must be provided at the same level as the perimeter angle trim along all fixed edges of the ceiling (a continuous concrete or block masonry wall/beam **seismic considerations - usg boral** - • arrange a project-specific preliminary seismic design report from usg boral. the usg acm7 seismic clip is designed and engineered to provide a more robust perimeter restraint than traditional l-shaped clips. **revoe clip - storage.googleapis** - for seismic prone areas, where building movement may be anticipated or where partition demountability and damage prevention to the ceiling grid is desired. revoe clips and donn brand grid form an effective seismic slip joint to minimise damage to the ceiling / partition interface (refer usg ceiling seismic design guide). eliminates unsightly screw hole damage to the grid face. fixing from the ... **technical document seismic technical guide - triangle fastener** - however, there are exceptions and the application of hanger wires in a seismic design category can meet code requirements in different ways. usg ® recommends that the design team, consulting engineers and code officials work together to analyze these **5.1 seismic design categories - cdn.ymaws** - potential seismic risk as represented by the seismic design category increases, the provisions requires progressively more rigorous seismic design and construction as a means of attempting to ensure that all buildings provide an acceptable risk **usg ceiling usg donn brand dx/dxl acoustical suspension system** - • maximum economy and design simplicity. • compatible with usg logix™ integrated ceiling system. • usg dxl™ system features more than 80 ul designs (up to three hours). **seismic design and the international codes - the south ...** - seismic design and the international codes - the south carolina experience - kent a. harries1 and jennifer b. davis 2 summary the state of south carolina was the first major jurisdiction to adopt the 2000 international residential code. immediate resistance from the homebuilders' associations resulted in a moratorium being placed on all seismic and wind-borne debris provisions of the code ... **seismic ceiling installation - ceilings from armstrong** - the seismic design category must be specified by a professional engineer or registered architect on the project drawings per asce 7. the project requirements which include the seismic design category can be found in section 1 of the **ac3271 4-way seismic expansion joint clip** - cross tee main tee cut cross tee clips if cross tees used and end detail is 3/4" typ. inserted into main tee fasteners 4-way seismic expansion joint clip **submittal sheet donn suspension systems - buildsite** - lay-in suspended ceiling slope non-seismic installation seismic design category c seismic design category d, e, f
